Heather has an extensive background in midwifery, maternal-infant health, women's health, perinatal wellbeing/mental health and primary health. During these times, women with a diagnosis of Borderline Personality Disorder can be particularly vulnerable and Heather offers caring, sensitive, professional help for women and their families including:

- Fertility/infertility issues
- Psychological/Mindfulness preparation for labour and birth
- Antenatal/postnatal anxiety and/or depression
- Antenatal, labour/birth and/or postnatal trauma
- Unexpected outcomes
- Grief/loss in pregnancy, birth or postpartum
- Other mental health issues/concerns around pregnancy and postpartum (for example, mood disorders, stress, distress, coping, adjustment)
- Perinatal post-traumatic stress disorder
- Parent-infant relationship issues

Also offering psychology support for doulas, midwifery students, midwives, maternal-infant nurses, perinatal mental health nurses and others.
